ABOUT THE TRAINER

Utkrist Shrestha , PMP
Trainer
LINE ACADEMY

Utkrist Shrestha is an experienced Mechanical Engineer with over 11 years of project management expertise, including 9 years as Lead Project Engineer at Adyard Abu Dhabi LLC in the United Arab Emirates (Jan 2014 – Dec 2021) managing complex oil and gas projects. During his tenure, he successfully led multidisciplinary teams, overseeing complex projects from initiation to completion, ensuring they were delivered on time, within budget, and in line with client expectations.

As the Lead Trainer for the PMP course at Line Academy, Utkrist is committed to fostering a collaborative learning environment and equipping professionals with the tools and knowledge to drive excellence in project management. His passion for mentoring and extensive industry experience make him a valuable guide for aspiring project managers and working professionals alike.

Utkrist is currently serving as the Project Lead at Sourcing Nepal, where he oversees project execution, management, and coordination across various sourcing and supply chain projects. In this role, he is actively involved in managing stakeholders, ensuring project timelines are met, and optimizing resources to achieve successful outcomes.

ABOUT THE TRAINER

Suresh Aryal, PMP
Trainer
LINE ACADEMY

Our other trainer Suresh Aryal is a PMI-certified Project Management Professional (PMP) and a Registered Scrum Master with an impressive track record in project management, particularly in the field of infrastructure development. With over 8 years of experience as a Project Manager/Project Coordinator on diverse infrastructure projects from the consultant side, Mr. Aryal brings a unique blend of technical expertise and practical industry knowledge to his training sessions.

He holds an Upper-Class Honors degree in Project Management from the prestigious Norwegian University of Science and Technology (NTNU), Norway, reflecting his strong academic foundation and global exposure in the field of project management.

In addition to his work in infrastructure projects, Mr. Aryal delivers Primavera P6 training to various Governmental and Non-Governmental organizations in Nepal, including Nepal Electricity Authority (NEA), SCAEF, and Jade Consult. His tailored training enables professionals to effectively optimize project planning, scheduling, and execution using Primavera tools. His ability to provide tailored training has helped professionals in these organizations optimize project planning, scheduling, and execution through effective use of Primavera tools.

ABOUT THE COURSE

This course is designed to provide a comprehensive understanding of project management principles and practices, aligning with both the PMBOK 6th and 7th Editions. The PMBOK 6th Edition emphasizes the traditional framework of project management, including the five process groups, ten knowledge areas, and various tools and techniques essential for managing projects effectively. Meanwhile, the PMBOK 7th Edition introduces a more flexible, principle-based approach, focusing on performance domains and value delivery. By integrating the structured methodologies of the 6th Edition with the adaptive, outcome-driven insights of the 7th Edition, this course ensures participants gain a holistic view of project management practices applicable across industries and project environments.

This PMP course offered by Line Academy is a **35-credit** hour program that fulfills the mandatory 35 hours of project management education required to be eligible to sit for the PMI PMP exam. Designed to meet global standards, the course equips participants with the essential knowledge, tools, and techniques to successfully prepare for and achieve PMP certification.

BENEFITS OF PMP TRAINING AT LINE ACADEMY

- **Certified and Experienced Trainers:** Learn from PMI-certified Project Management Professionals (PMP) and industry experts like Utkrist Shrestha and Suresh Aryal, who bring over a decade of real-world experience in managing complex projects globally.
- **Proven Track Record:** Line Academy has a strong history of successfully preparing students for the PMP certification, with excellent pass rates and positive student feedback.
- **Comprehensive Training Facilities:** Enjoy well-equipped classrooms, interactive sessions, and access to up-to-date PMP exam preparation materials.
- **Real-World Insights:** Trainers incorporate practical project management examples from their experience in infrastructure, engineering, and IT sectors, bridging the gap between theory and practice.
- **Personalized Learning Support:** Benefit from one-on-one guidance, doubt-clearing sessions, and personalized strategies to ensure your PMP exam success.
- **Effective Exam Preparation:** Get hands-on experience with mock tests, exam simulations, and practice questions that replicate the PMP exam environment.
- **Flexible Training Options:** Line Academy offers flexible class schedules to accommodate working professionals, including weekend and evening sessions.
- **Networking Opportunities:** Connect with other professionals, project managers, and trainers to expand your professional network and career opportunities.

COURSE OUTLINE

- Part 1: Project Integration Management
- Part 2: Project Scope Management
- Part 3: Project Schedule Management
- Part 4: Project Cost Management
- Part 5: Project Quality Management
- Part 6: Project Resource Management
- Part 7: Project Communications Management
- Part 8: Project Risk Management
- Part 9: Project Procurement Management
- Part 10: Project Stakeholder Management

Part 1 : Project Integration management

- Ensures that all project elements are coordinated.
- Includes activities like developing the project charter, project management plan, and managing project changes.

Part 2: Project Scope Management

- Focuses on defining and controlling what is and is not included in the project.
- Activities include scope definition, WBS creation, and scope validation.

Part 3: Project Schedule Management

- Involves planning, developing, managing, and controlling the project schedule.
- Key activities include defining activities, sequencing them, and estimating durations.
- Schedule Variance and Schedule Performance Index Analysis

Part 4: Project Cost Management

- Deals with planning, estimating, budgeting, and controlling project costs.
- Includes cost estimation, budgeting, and cost control processes.
- Cost Variance and Cost Performance Index Analysis

Part 5: Project Quality Management

- Ensures the project meets quality standards.
- Includes quality planning, quality assurance, and quality control.

Part 6: Project Resource Management

- Focuses on identifying, acquiring, and managing resources (both human and physical).
- Includes resource planning, team development, and management.

Part 7: Project Communications Management

- Ensures timely and effective communication among stakeholders.
- Includes communication planning, management, and monitoring.

Part 8: Project Risk Management

- Identifies, analyzes, and plans for potential risks.
- Includes risk identification, qualitative and quantitative risk analysis, and response planning.

Part 9: Project Procurement Management

- Involves acquiring goods and services from outside the project.
- Includes procurement planning, conducting procurements, and contract management.
-

Part 10: Project Stakeholder Management

- Focuses on identifying and managing stakeholder expectations and engagement.
- Includes stakeholder identification, engagement planning, and engagement monitoring.
